

NR=5

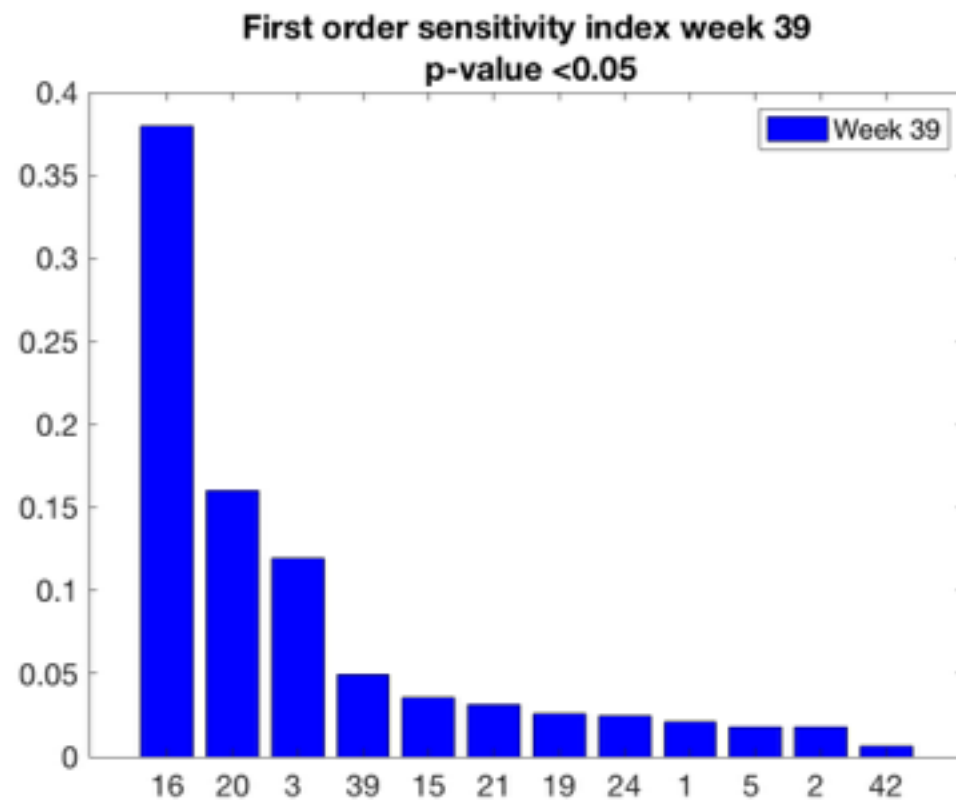

NR=30

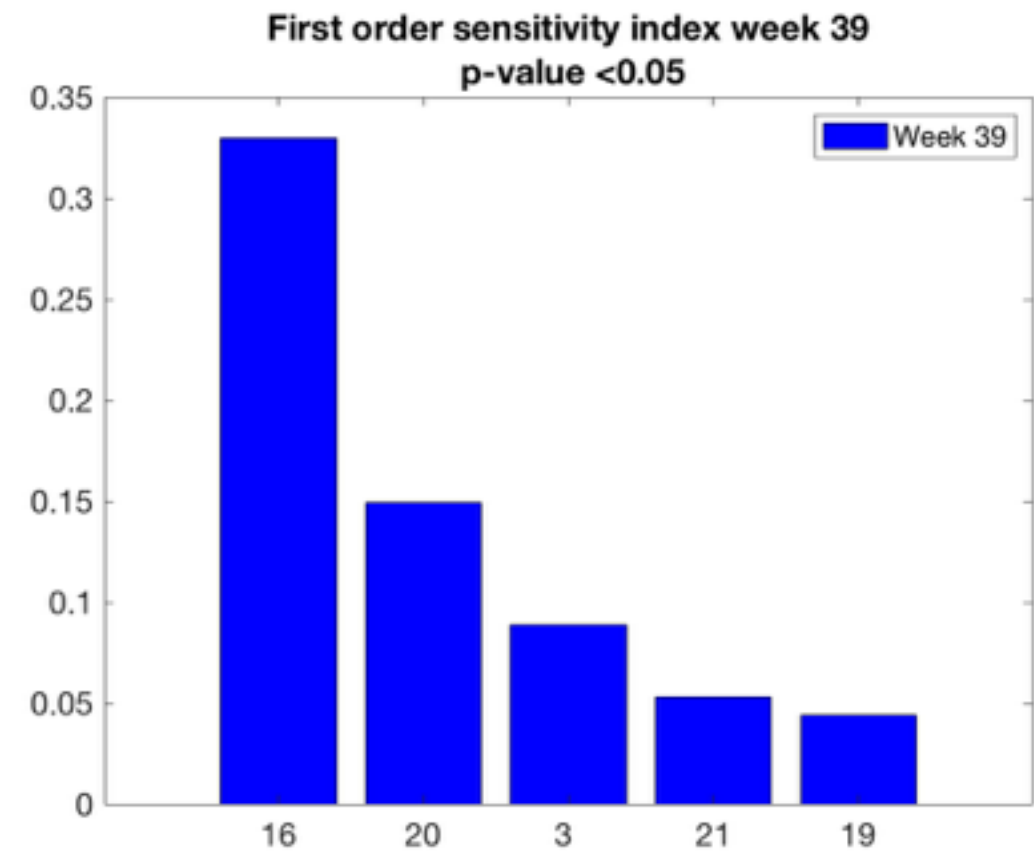

Number of significant parameters are the same
but the types of parameters are different.
Same for total order

NR=5

NR=30

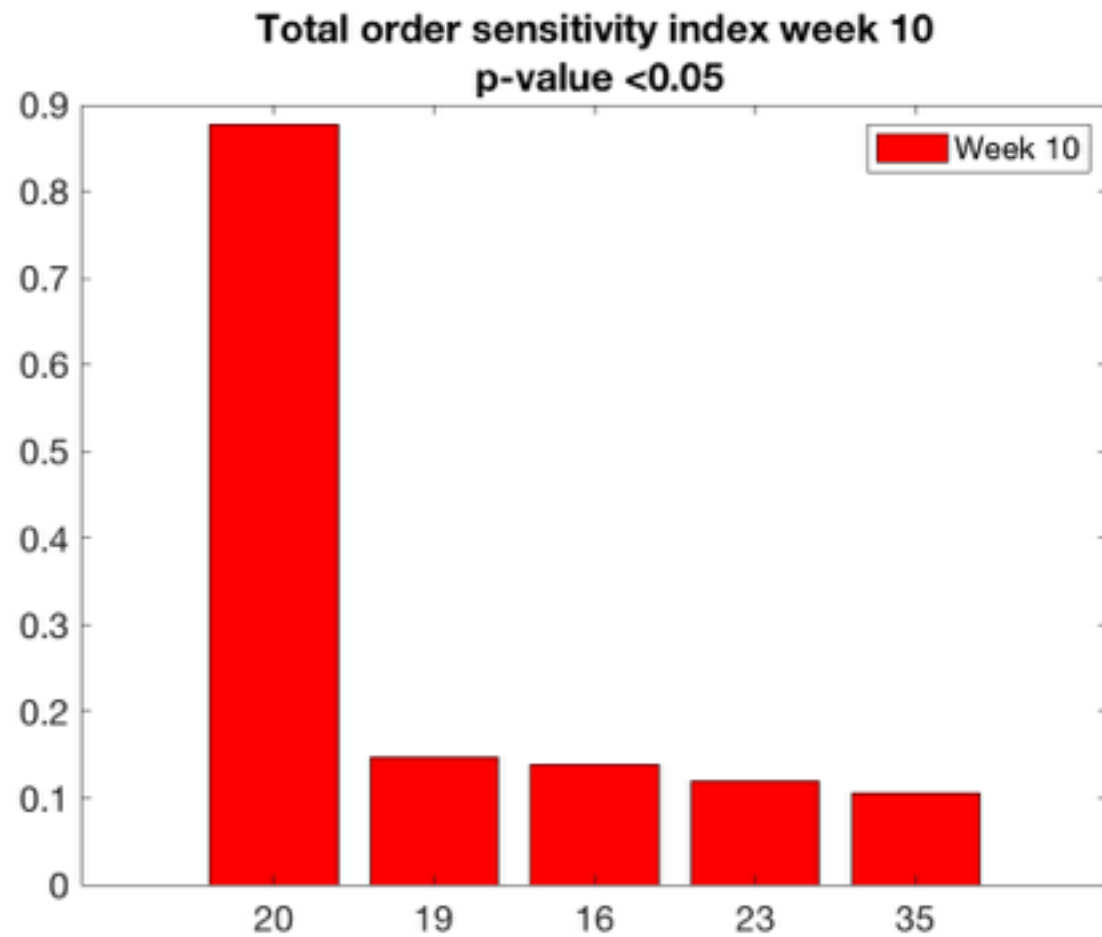

Number of significant parameters is reduced as NR increases.

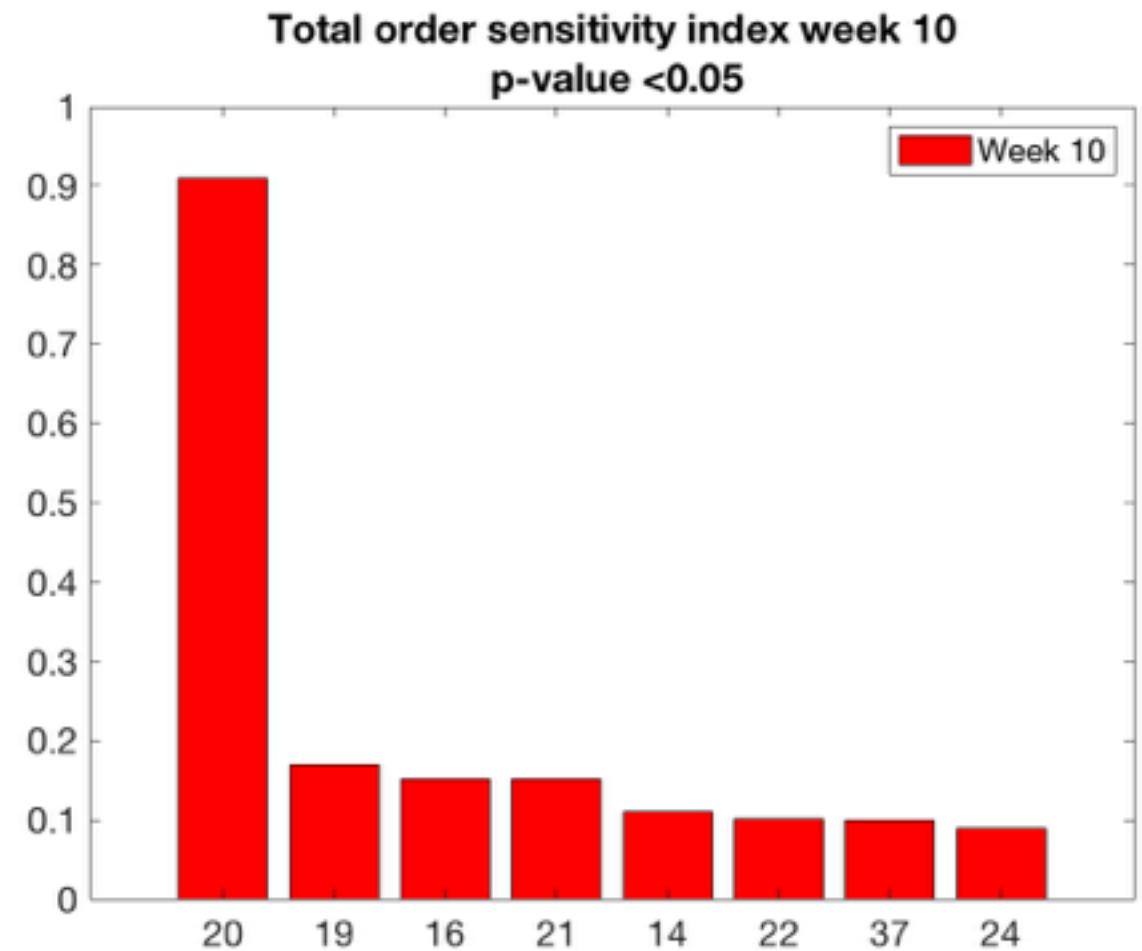

Same for STi.

The subset of parameters for STi is smaller

NR=5

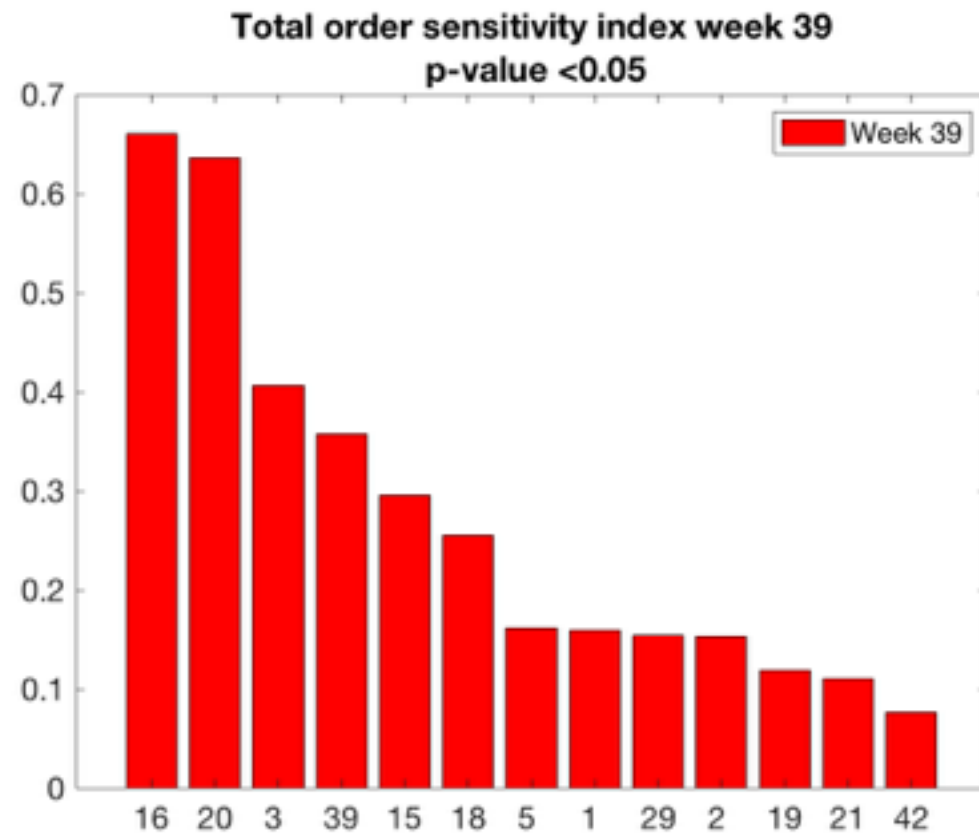

NR=30

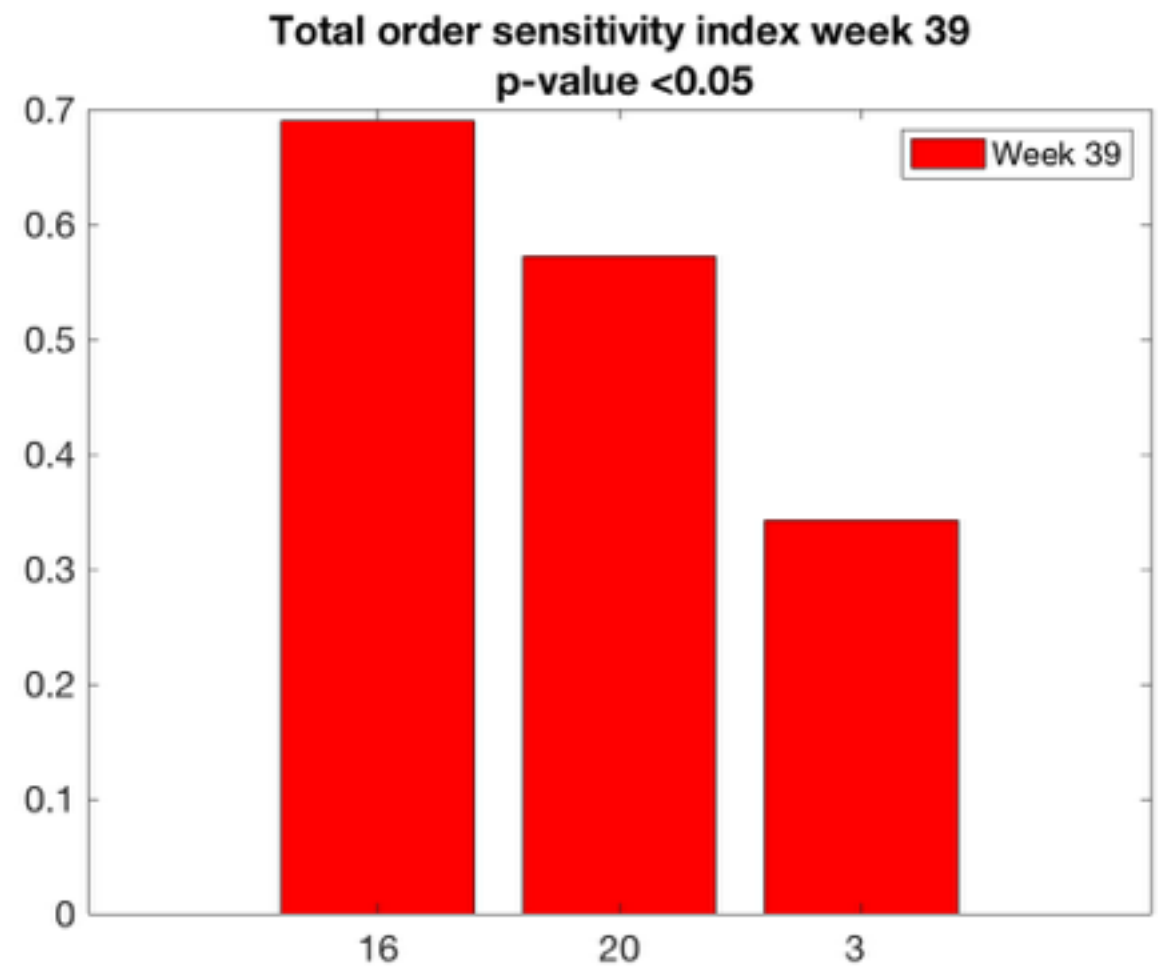

Number of significant parameters are the same
but the types of parameters are different.

NR=5

NR=30

Number of significant parameters are the same
but the types of parameters are different.
